

ISO 14001:2015 Environmental Management Systems Implementation Training Course

COURSE OVERVIEW

This training aims to provide learners who have an existing, basic knowledge of, or experience in, environmental management with an understanding of the management systems approach and the requirements of ISO 14001, and to provide a basis for learners who wish to implement an Environmental Management System.

DURATION: 2 Days

ACCREDITATION: SGS

DELIVERY: Virtual Instructor
Led Training

LANGUAGE: English

IMPROVE YOUR ORGANISATION'S
ENVIRONMENTAL PERFORMANCE

LEARNING OBJECTIVES

Upon completion of this course, learners will be able to:

- Gain commitment and support from Senior Management.
- Engage the whole business – training and communicating requirements.
- Compare the existing management systems with the ISO requirements.
- Establish an implementation team to address identified performance gaps.
- Conduct internal audits and encourage staff to train as Internal Auditors.
- Regularly review the management system and continually improve it.

Learners will need to demonstrate acceptable performance in all of these areas in order to complete the course successfully.

AUDIENCE

Learners who have an existing, basic knowledge of, or experience in, environmental management who wish to implement an Environmental Management System into their organisation.
