ISO/IEC 27001:2022 Information Security, Cybersecurity and Privacy Protection -Information Management Systems (ISMS) Internal Auditor Training Course

SGS

COURSE DESCRIPTION

The purpose of this course is to provide you with the knowledge and skills required to perform an internal audit of an Information Security Management System (ISMS) based on ISO/IEC 27001 (or equivalent) and report on the effective implementation and maintenance of the management system in accordance with ISO 19011.

DURATION:	2 Days	DELIVERY:	Virtual Led Instructor Training (VILT)
ACCREDITATION:	SGS	LANGUAGE:	English

"
CONDUCT ISO/IEC 27001:2022 INTERNAL AUDITS
"

LEARNING OBJECTIVES

Upon completion of this course, you will be able to:

- Explain the process-based information security management system model for ISO/IEC 27001, with reference to the Plan-Do-Check-Act (PDCA) cycle, and the role of internal audit in the maintenance and improvement of information security management systems.
- Explain the role and responsibilities of an Auditor to plan, conduct, report and follow-up an information security management system internal audit, in accordance with ISO 19011.
- Plan, conduct, report and follow-up an internal audit of part of an information security management system based on ISO/IEC 27001 and in accordance with ISO 19011.

You will need to demonstrate acceptable performance in each of these areas in order to complete the course successfully.

AUDIENCE

This course is aimed at anyone interested to understand and conduct internal audits against ISO/IEC 27001:2022.

ISO/IEC 27001:2022 Information Security, Cybersecurity and Privacy Protection -Information Management Systems (ISMS) Internal Auditor Training Course

SGS
