

# ISO/IEC 27001:2022 Information Security, Cybersecurity and Privacy Protection - Information Management Systems (ISMS) Introduction Training Course

## COURSE DESCRIPTION

The purpose of this course is to provide you with an understanding of the management systems approach and the requirements of ISO/IEC 27001. This course may be valuable as preparation if you are planning to complete other ISMS-based training courses, such as the ISMS Auditor/Lead Auditor Training Course or the Internal ISMS Auditor Training Course.

DURATION: 1 Day	DELIVERY: Virtual Led Instructor Training (VILT)
ACCREDITATION: SGS	LANGUAGE: English

UNDERSTAND ISO/IEC 27001:2022  
REQUIREMENTS

## LEARNING OBJECTIVES

Upon completion of this course, you will be able to:

- Explain the purpose and business benefits of an information security management system.
- Outline the structure and content of ISO/IEC 27001:2022 and its relationship with ISO/IEC 27000 and ISO/IEC 27002.
- Explain the specific information security management-related requirements of ISO/IEC 27001:2022.

You will need to demonstrate acceptable performance in each of these areas in order to complete the course successfully.

## PRIOR KNOWLEDGE

Before starting the course, you are expected to have the following knowledge:

- An understanding of the Plan-Do-Check-Act (PDCA) cycle.
- A basic knowledge of the concepts of information security management and an understanding of commonly used information security management terms and definitions, as given in ISO/IEC 27000.
